

ECO4 & Great British Insulation Scheme Post-Installation Declaration

Introduction

The purpose of this form is to capture the details of the completed project and the measure/s within it. The form may be completed offsite when work has completed, and a copy must be retained with the occupier.

Any fraudulent activity including falsifying statements, falsifying signatures, and copying- pasting may be reported to the Police/Action Fraud or a similar organisation. This may affect the validity of any measure installed and the measure may be rejected.

Any evidence of electronically duplicated or forged signatures will be investigated. Any measures where suspected fraudulent activity or scheme abuse is detected will be rejected¹.

Ofgem also recommends that any additional evidence collected as part of these forms be handled as the final step in the process to adhere to Data Protection Act 2018 requirements².

For better understanding on how your data will be used under The Great British Insulation Scheme or ECO4 please visit our website³.

Please be aware some sections are scheme specific – and have been labelled as so. If a section or question is not relevant to your scheme, please leave section blank. Otherwise, please fill out all questions.

¹ Please see chapter 8 in the ECO4 Delivery Guidance for further information.

Completing the post installation declaration form

| | Form Information |
|-----------|---|
| Section A | This section is designed to capture the details of the occupier or landlord. It |
| | must be signed by the occupier or landlord, unless the property is social |
| | housing. |
| Section B | This section is designed to capture the details of the completed project. It must |
| | be completed by the Retrofit Coordinator or by the relevant operatives, where |
| | the project consists only of DHC and/or DLMs. |
| Section C | This section is designed to capture the details of the measures carried out. This |
| | must be completed by the Retrofit Coordinator. once the project/measure is |
| | completed. |
| Section D | This section is designed to capture the details of district heating connection |
| | (DHC) measures that have been carried out as part of a project. It must be |
| | completed by the installer once the project/ measure is completed. |
| Section E | This section contains declarations of compliance with PAS, MCS and |
| | building/other regulations. It must be completed by all operatives carrying out |
| | measures within the project. |
| Section F | This section is developed to be signed from the Retrofit Coordinator or relevant |
| | operatives upon the completion of the ECO4 project. The section is designed to |
| | capture multiple operatives. |
| Section G | This section is designed to capture the POPT calculation for partial project |
| | scores. To be completed by the qualified operative who completed the |
| | installation in accordance with PAS, or other relevant standard where PAS is not |
| | applicable. May be completed offsite when work has been subcontracted. |

Occupier/Landlord Details and Declaration

Occupier or Landlord confirms all information is true by signing section A

- The installation date recorded next to the measure(s) described on the following page or on the attached spreadsheet is/are correct.
- The retrofit coordinator has demonstrated and explained the use and maintenance of (or relating to) any measure and has provided operating instructions and system documentation for the installed measure(s) described on the following page. The Installer has also made me aware of the need to continue to maintain the fabric (walls, floors, and roof).
- I confirm that the premises was occupied before the date of completed installation⁴.
- For Internal Wall Insulation measures, where any rooms have been left uninsulated, I confirm that the installer has made me aware of the importance of continuous ventilation, and heating those rooms to at least 18°C.

| Occupier/Landlord Details: | ☐ Private Tenant ☐ Owner occupier ☐ Landlord ⁵ / Managing Agent ⁶ |
|--|---|
| Occupier/Landlord print name ⁷ and full address including postcode ⁸ : | Full name: Address: |
| Contact phone No and email address: | Contact number: Email address ⁹ : |

⁴ Applicable only for those premises built from 1st April 2022 and to be signed by the landlord or non-resident owner, excluding the repair of broken heating measures.

⁵ Including social housing providers

⁶Landlord's authorised property management agent.

⁷Occupier is the applicant/individual receiving the ECO4 measure. If you are signing on behalf of the occupier, the occupier name should still be printed here.

⁸Address of property where retrofit has occurred.

⁹ If email address is not available enter N/A

| | | Print name: | | | Occupier relationship: | | | |

G. POPT Calculation for ECO4 or Great British Insulation Scheme Scores

Relevant tables are required to be completed according to insulation measure(s) installed.

Roof insulation measures only

Enter areas with a different roof type (or where a different roof insulation measure/depth is being installed) as extensions. For RIRI, the total residual loft area should be included in the RIR area recorded below. For further information on RIRI measure please see RIRI section in ECO4 Delivery Guidance.

| Property section (main loft, extensio etc) | riat , | / d / | Roof area (M²) | m² and type of insulation to b | | | | | oe inst | alled ³⁶ | i |
|--|-----------------------------------|----------|----------------------|--------------------------------|-------|-------|-------|------|---------|---------------------|----|
| | | | | ≤ | | >100m | | FRI | | RIRI | |
| | | | | 100mm | | m | | | | | |
| | | | | ≤ | | >100m | | FRI | | RIRI | |
| | | | | 100mm | | m | | 11/1 | | IXIIXI | |
| | | | | ≤ | | >100m | | FRI | | RIRI | |
| | | | | 100mm | | m | | 1111 | | 1,11,11 | |
| | | | | ≤ | | >100m | | FRI | | RIRI | |
| | | | | 100mm | | m | | 11/1 | | IXIIXI | |
| | | | | ≤ >100m | FRI | | RIRI | | | | |
| | | | | 100mm | | m | | 1112 | | 11111 | |
| Total roof area ³⁷ | | | ≤ | | >100m | | FRI | | RIRI | | |
| | | А | 100mm | В | m | С | 1111 | D | 1/11/1 | Е | |
| ≤ 100mm | B/A= | % | FD | I POPT | | | | | D/A= | | % |
| POPT | | /0 | | I I OF I | | | | | 0/4- | | 70 |
| > 100mm | C/A= % Percentage of RIRI measure | | | | F % | | : 0/2 | | | | |
| POPT | C/A- | -70 | ins | installed ³⁸ | | | | r % | | | |
| RIRI POPT | | | | | (ExF |)/A= | % | | | | |

 $^{^{36}}$ For RIRI, 'E' refers to the floor area of the RIR + the residual area, not the amount of insulation installed.

 $^{^{37}}$ For RIRI measures, the total roof area is the footprint area and not all the elements of the RIRI measure.

³⁸ Previous versions of the POPT calculation referred to 'percentage of measure installed'. We no longer use this terminology, but the calculation gives the same result.

| Under Floor insulation measures only | | | | | | | | |
|--------------------------------------|--------|------------------------------|----|-----------------|--|--|--|--|
| Property section (main | Area | M ² of insulation | | | | | | |
| property, extension etc) | suspe | nded timber | M² | to be installed | | | | |
| | | | | | | | | |
| | | | | | | | | |
| | | | | | | | | |
| | | | | | | | | |
| | | | | | | | | |
| Underfloor Insulation POPT | B/A= % | Total floor area | А | В | | | | |

IWI / EWI / CWI measures only

Enter each different type of wall area as an extension. Wall area must include all <u>heat loss</u> wall areas (including areas already insulated and areas that cannot be insulated).

| Property section (eg, main property, extension, front walls etc) | Wall construction E.g. Cavity / cob / solid stone / solid brick / system / timber / park home | Wall area m² (excl windows and doors) | M ² of insulation to be installed | | | |
